STRUCTURE BLOCK DIAGRAM OF *mySAP*

IN SCOPE: PP, MM, SD, FI/CO, QM, PM, ABAP/4, BASIS

PROJECT SIZE: 56 MAN MONTHS

IMPLEMENTATION DURATION: 7 MONTHS

KEY FEATURES:

- **EOU Operations.**
- **Import Purchasing**
- **Discrete Manufacturing (Make to Stock)**

Customer Testimonials

"With the entire process online on SAP software, even a midsize company like ours can provide up-to date inventory and order fulfillment information using a variety of electronic communications protocols." - says **GM Finance, Indo Schottle Auto Parts Pvt.Ltd**. While Indo Schottle Auto Parts Pvt.Ltd has enjoyed some cost savings, the real value of the SAP solution lies in the company's ability to move employees from manual tasks to higher-value activities. **Says the GM, Finance** : "Instead of merely gathering data, we're now analyzing and evaluating that data, leading to more effective decision making and planning." A later implementation of SAP Business Intelligence, a component in the SAP NetWeaver™ platform, will further support additional analysis. "We are very pleased with how well the project went and the consultant's approach and support" he adds.
